HONORING COMMUNITY CHAMPION

DR. WILLIAM DICUCCIO

HON. MIKE KELLY

of pennsylvania

in the house of representatives

Wednesday, July 29, 2015

Mr. KELLY of Pennsylvania. Mr. Speaker, I would like to recognize one of my constituents from Western Pennsylvania, Dr. William DiCuccio. Dr. DiCuccio is a prestigious medical professional in Butler County, and his sincere desire to serve has had an international impact.

Dr. DiCuccio received a Bachelor of Science Degree from Saint Vincent College and then went on to attend Medical School at Jefferson Medical College in Philadelphia. Shortly after graduation Dr. DiCuccio opened his own family practice, William A. DiCuccio M.D. & Associates, where he worked for the following 30 years. Throughout his career, Dr. DiCuccio has maintained an honorable reputation while serving in various prominent positions within the community. These positions include Vice President of Medical Affairs for Butler Health System, Medical Director for Butler County Prison, and his current position as Medical Director, at Sunnyview Nursing Home. Dr. DiCuccio humbly embraced each of these roles, taking full advantage of his ability to positively influence the lives of those around him.

Due to his professionalism and expertise, Dr. DiCuccio's involvement has been an asset to various advisory boards, including Butler County Community College (Vice Chairman, Board of Directors), World Servants (Board Member), Community Health Clinic of Butler (Chairman/Board Member), St. Vincent College-Boyer School (Board Member), Gaiser Center (Board Member), and Mission Development Villa Hermosa-Dominican Republic (Director). In addition, Dr. DiCuccio has voluntarily participated in a number of civic organizations and professional societies, continuously giving back to the community. He is currently an active member of the American Academy of Family Physicians, American Geriatrics Society, Pennsylvania Medical Society, and the Butler County Medical Society.

When he's not caring for patients, Dr. DiCuccio enjoys spending time with his family, participating within his church, traveling, and golfing. These very interests were the driving factors behind Dr. DiCuccio's first trip to the Dominican Republic, a trip which would forever change his life. While traveling abroad, Dr. DiCuccio and his wife, Marge, visited a small barrio called Villa Hermosa, a poverty-stricken town located about 70 miles from the Dominican Republic's capital city, Santo Domingo. Villa Hermosa, which means ``beautiful village'' in English, is home to 4,500 of the most genuine people, whose positive attitudes remain resilient despite their lack of basic necessities.

Villa Hermosa consisted of miles of shacks, constructed from scrap metal. The community was without drinking water, sewage systems, and electricity; however, there was an abundance of joy. The children that ran through the streets did not have clothing on their backs or shoes on their feet, yet there were smiles on their faces. The time spent with these wonderful people was inspirational and life-changing for Dr. DiCuccio and within an hour of departure from Villa Hermosa, he realized God led him there for a very specific purpose.

Dr. William and Marge DiCuccio started the ``Hope Project'' which has collaborated with World Servants, various churches, and individual sponsorships, all focused on the same objective of improving the quality of life for others. Since Dr. DiCuccio took the initiative, the transformations within Villa Hermosa have been immeasurable: The local church, which serves as the heart of the community, has been repaired and expanded, allowing them to accommodate for large crowds. A brand new grade school, where 400 students are educated, fed, immunized, clothed, and cared for in general, has been constructed and developed. In addition, this school brings countless benefits to the surrounding community, one of those being the fact that it employs a number of local residents, including seven teachers, a psychologist, a principal, a secretary, and cleaning staff. In order to produce clean drinking water, a well was drilled and a water purification plant was constructed. This plant produces 4,000 gallons of water per hour, sold to benefit the people of Villa Hermosa. Most recently, a medical clinic was constructed and is currently being run by Medical Missions International. This clinic is combating the leading cause of death in the Dominican Republic, namely the spread of communicable diseases.

In serving God, his family, and all of those in need, Dr. DiCuccio is an absolute inspiration. His compassion and generosity has positively influenced the lives of so many, and will continue to do so for years to come. Therefore, on behalf of the Third Congressional District of Pennsylvania, along with Villa Hermosa, I would like to express sincere gratitude and appreciation to Dr. William DiCuccio, an admirable professional, a selfless individual, and a true Community Champion.
