

Congress of the United States
House of Representatives
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the City of Corry PA in Fiscal Year 2027. The entity to receive funding for this project is City of Corry located at 100 South Center Street, Corry PA 17407. The funding would be used for renovations and construction to existing building to be used as a Public Safety Building. This benefits PA-16 by providing the only full-time professional police and fire services for many surrounding rural municipalities across three counties, delivering 24/7 professional law enforcement, 24/7 professional fire suppression, K-9 operations, terrestrial and aquatic search-and-rescue, mutual aid, and medical response. These services directly support rural business, farms, residents, and critical rural infrastructure. Additionally, revitalization will remove a prominent commercial building-an ongoing "white elephant" eyesore-is undermining investment in downtown Corry. Redeveloping the site into a mission critical public safety facility will eliminate blight, restore productive use, strengthen neighborhood confidence, attract private investment, and stand as a visible symbol of community resilience and recovery.

This project has a federal nexus because it is for the purposes authorized in Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a).

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

Member of Congress
