House of Representatives  
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

Dear Chairman Cole and Ranking Member DeLauro: I am requesting funding for From the Founding to the Future: Connecting Grove City Parks/Recreation Opportunities through Facility, Street and Trail Improvements in Fiscal Year 2027. The entity to receive funding for this project is Borough of Grove City, located 123 West Main Street Grove City PA 16127. The funding would be used to improve public infrastructure and create a safe, accessible connection between Cunningham Mill Park and Hunter Farm Park through roadway, pedestrian, and recreational facility improvements. The project will modernize aging infrastructure, expand accessibility for individuals with disabilities, and create a continuous pedestrian and bicycle network that connects neighborhoods to two of the Borough's most important public recreation areas. The project consists of three primary components: improvements to Cunningham Mill Park, improvements along Greenwood Drive, and improvements at Hunter Farm Park. Together, these components will create a unified recreation and transportation corridor that safely links residential neighborhoods, parks, and recreational amenities. The project is an appropriate use of taxpayer funds because it represents a responsible and strategic investment in public infrastructure that will deliver long-term benefits to residents throughout Grove City and the surrounding Mercer County region. The project will modernize aging roadway, park, and trail infrastructure while creating safe, ADA-accessible connections between Cunningham Mill Park and Hunter Farm Park. By improving pedestrian and bicycle safety along Greenwood Drive and rehabilitating deteriorated recreational facilities, the project will expand access to public parks, support youth sports programming, and improve transportation safety for residents who currently share narrow roadways with vehicle traffic. These improvements will directly serve the Borough's population of approximately 8,000 residents, while also benefiting many more across the greater Grove City area of southern Mercer County who regularly utilize the community's parks, trails, and youth sports facilities.

The project has a federal nexus because the funding provided is consistent with purposes authorized in 23 USC 133.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Member of Congress
