Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for US 422 Bypass Phase 2 in surface transportation reauthorization legislation.

The project sponsor for this project is PennDOT Engineering District 10-0 and the project is located at Butler, Connoquenessing and Franklin Townships, PA 16027.

The funding is designated for is for highway surface improvements including patching existing concrete four-lane roadway and overlay with bituminous binder and wearing courses, update drainage and guide rail, replace concrete median barrier, preservation work on structure, and other miscellaneous construction. US 422's current asphalt overlay is fatigued and in need of preventative maintenance work so that the mobility and travel safety is maintained through future life cycles.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits of providing better corridor and highway surface consistency for the traveling public and truck traffic and will adjoin the previous Butler Bypass Phase 1 project.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Kelly
Member of Congress
